-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-8 are rejected under 35 U.S.C. 102(b) as being anticipated by **Osiadacz et al (US Patent 3,965,536)**.

Osiadacz et al teach an automated meat tenderization system which is structurally similar to the Applicant's claimed device for introducing liquids into meat. The device of Osiadacz et al includes one or more machine frame(s), an injection device connected with one or more high pressure systems by way of liquid distributor systems disposed on the machine. The injection device includes one or more muzzle pipes disposed on the machine frame with a feed line. As for claim 2, Figures 3 and 4 demonstrate a transport device including a transport belt. Regarding claim 3, the injection device is provided with end position limiters. In regards to claim 4, similar spray nozzles are disposed on a nozzle pipe. Regarding claims 6 and 7, the injection device is rigidly connected with one another on a movable machine frame. As for claim 8, Figures 3 and 4 demonstrate pieces of meat or the carcass being transported in the transport device hanging vertically.

Claim Rejections - 35 USC § 112

Claims 1-14 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. In claim 1, line 1, the phrase "introducing liquids meat" needs minor grammatical revision. In claim 1, line 2, the term "it" is unclear as to what "it" is referring to or modifying. In claim 1, line 3, "which" is unclear as to what it is referring to. In claim 1, line 4, the term "whereby" is usually used towards the end of the body of the claim. In this particular case, it is difficult to determine where the "whereby" clause ends. In claim 9, lines 4 and 5, "the injection lances" lack prior antecedent basis in the claims.

Allowable Subject Matter

Claims 9-14 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

Conclusion

Summary: Claims 1-14 are rejected.
